

Certificate

to verify the REACH (pre)-registration

We hereby confirm that all necessary steps have been set in motion from our side. We assure that within the REACH framework and under consideration of time and quantities we will follow the ECHA guidelines 100%.

All our products (or better formulations and substances) that require a (pre)-registration will be handled accordingly (over 1t p.a.). We also include our upstream-supplier and reserve the right to (pre-)register some formulations ourselves.

Our product range only contains substances that (if necessary) have been pre-registered with the European Chemical Agency (ECHA) in Helsinki. The pre-registrations have been done by the supplier, his own suppliers or our own only representative within the EU.
